

CLINICAL RESEARCH HIGHLIGHTS – DIGESTIVE SUPPORT

In a randomized, double-blind, placebo-controlled clinical study conducted over **3 MONTHS**, the reported outcomes included:

CLINICAL PARAMETER		REPORTED OUTCOME	
	Heartburn		Relief reported within 7 days
	Nausea & Vomiting		Relief reported within 7 days
	Bloating, Flatulence & Belching		Relief reported within 14 days
	Abdominal Distension & Stomach Fullness		Relief reported within 14 days
	Hyperacidity & Epigastric Discomfort		Relief reported within 14 days
	Constipation		Improvement reported over 90 days
	Rescue Medication		Reduced requirement reported over 90 days

These findings indicate potential support for **DIGESTIVE COMFORT, GASTROINTESTINAL WELL-BEING** and **HEALTHY BOWEL FUNCTION** following supplementation.
