

CLINICAL RESEARCH HIGHLIGHTS –

KIDNEY DETOX

In a clinical evaluation conducted over approximately **60 DAYS**,
the reported outcomes included:

CLINICAL PARAMETER		REPORTED OUTCOME	
	Kidney Stones (Calculi) (Ultrasonography)	 60%	Reduced
	Abdominal Pain (Visual Analog Scale)	>90%	Improvement
	Burning Micturition (Visual Analog Scale)	>90%	Improvement
	Dysuria (Visual Analog Scale)	>90%	Improvement
	Urinalysis Parameters (RBC, Pus Cells, Epithelial Cells, Calcium Oxalate Crystals)	MARKED IMPROVEMENT	In 60 Days
	Serum Creatinine (Blood Test)	 25.81%	Decreased

These findings suggest that the **PLANT-BASED KIDNEY DETOX SUPPLEMENT** may serve as an **EFFECTIVE ADJUNCTIVE THERAPY** for managing **kidney stones** and associated symptoms, and improving overall **kidney health**.
